Introducing The New Premium Modular Building Range

We are delighted to introduce our New Premium Range Modular Building. Designed by our team and manufactured in our Limerick Factory, this Modular Building is an ideal Cost Effective, Flexible and Rapid solution for your accommodation requirements. They can be extended, adapted or relocated if necessary, ensuring it can adapt to changing needs of your business. Installation is much quicker than traditional construction, minimising disruption to the surrounding area.

Features of the Premium Modular Buildings:

- Highly Insulated Low Energy Building.
- Manufactured at our Limerick Factory.
- Steel Framed Construction with Architectural Wall Panels giving a 30+ Year Life Expectancy.
- 60 Minute Fire Rating.
- 2,7mm Floor Ceiling Height. Fully Compliant with Building Regulations.
Installation of Premium Modular Buildings:

The building installation is completed by the Castlecabin Team on site and typically takes 4 working days. The Team works quickly to minimise disruption with the maximum efficiency.

Case Study: Modular Building Installed in 4 Days at Milford National School.

Castlecabin installed a Modular Building for Milford National School – over the October 2018 Mid Term Break. The Deadline for completion was 4 Days, the Classroom needed to be fully up and running in time for the Children’s return to school. The below time-lapse gives a fascinating insight into how efficiently our team worked to make sure that the Children walked straight into their new Classroom on their return to school.
